

ABSORBENT CAR COASTER

Item No. CARCO

The average American will spend up to 1 hour per day commuting in their car. This creates a branding opportunity space that will slot into their daily routine. These stunning condensation absorbing, round ceramic coasters will help you capitalize on this opportunity. They're sized to perfectly fit into most cars, van, trucks & SUV cup holders, and are mildew-proof and is easy to clean with just a quick rinse with water. They look great with either a one-color pad or a full-color digital imprint, although the nature of the porous material will mute some color brightness and vibrancy.

Starting at \$1.31 (c)

Prices shown above are subject to change. For complete product and decoration information, current pricing, and more information visit our website beaconpromotions.com.
