Beacon World Imports

ALL THE INFORMATION YOU NEED

What info do I need to provide to get a quote?

Answer: This will vary depending on the item being order. However, this information is standard for all items: Quantity, Size, Color, Imprint colors, Imprint Location, Same ad on all, Changes of copy, Photo of item, Material, Special packaging, Ship to Location, In hands date and whether it is a children's product.

Are there minimum order requirements?

Answer: The minimum will vary depending on the item being quoted. But a good rule of thumb is 5,000 pieces or more.

Do I get a proof?

Answer: Yes, a free pre-production proof is provided. This pre-production proof will take several weeks to get. Approval is needed before production begins on the full order.

How are freight and duties handled?

Answer: Freight and duties are built into the quote. This is why it is important to know the ship to location when quoting. You get one price and no hassles. Beacon handles all of the details so you don't have to.

Are any safety tests done?

Answer: Free lead testing is done on all custom and stock products prior to the full production run. Lead-free items meet the CPSIA standards. Any items intended for children undergo a third party CPSIA compliancy test as well. So rest assured your product will be safe.

How long does it take to get a quote?

Answer: Quotes are generally turned around in 24-48 hours.

What is the lead time for Beacon World Import orders?

Answer: Production time begins after pre-production approval. It is approximately 90 days for hard goods and leather items are approximately 120 days. However, if you have an in hands date sooner than this, let us know and we can check with the factory to see if the date can be met.

What is the advantage of ordering through Beacon?

Answer:

- No hassle
